## **Teaching Fundamentals Needed**

"Hard school," "soft school," "modern" education, "old-line" schooling and progressive" teaching are terms being bandied about by the education fraternity to the point where a large segment of the public and many of the educators no longer have a clear picture of what kind of education process this nation had yesterday, what kind it has today or what kind it should have tomorrow. They are equally in the dark on the route to be taken to make the transition from today to tomor-

This confusion is understandable, since the absorption of knowledge remains high on the list of continuing domestic controversies. On one point most educators have reached agreement:

The progressive education thesis that each pupil should be free to choose his own subjects as a means of 'self-expression" was a mistake. It does no good to remind proponents of the idea that it was doomed to failure from the start. It was an idea that would not die until it had been

In going off on tangents of theoretical education, modernists have often discarded the fundamentals of history, grammar and mathematics as unnecessary weighty subjects hindering the development of ourious minds. As a result, the foundation necessary to formulation of ideas may be

Education adjustments will continue until the day civilization's progress ends. One of the primary objectives of contemporary educators is to overcome the situation described by an elementary supervisor who appeared at a New York educators' meeting to lament that today's student can pass examinations on the principle and mechanical functions of a barometer, but he cannot tell where the sun

## **Beware Those Pretty Leaves**

This is the time of year when poets con- leaves, particularly after a slight rain or cort their most beautiful phrases about the autumnal garb of nature. Water colorists and oil painters work like mad, capturing on paper and canvas the splendor of the trees.

And there are few sights to rival the scene of a highway or road veneered with the galaxy of red, yellow and orangebrown leaves that have glided down from their branches in this ballet of autumn.

But a danger lurks on such streets and highways. The thin covering of leaves is enough to send the vehicles of the most cautious driver into a spin that may end up on a pavement or into the trunk of a tree - or against a human body.

The danger is sometimes greater than the hazards of ice and snow. Drivers recognize the dangers of both. But many drivers are not aware of the trickery of fallen

a heavy autumn morning mist.

It is not always possible for property owners to clear away the leaves immediately and it is weeks before they have blown away or have been pulverized by traffic. So, when launching into superlatives about the beauty of autumn, keep your eyes on the leaf-covered highways and your hands on the wheel. There's danger lurking in some of that splash of color ahead of the car.

These figures are significant: In 1957, steel mill products were imported into the United States to the amount of 1,152,549 metric tons; in 1958, it came to 1,702,-819; during the first seven months of 1959, the imports amounted to 2,341,451 metric

These figures tell a story of the increasing importation of our basic manufactured commodity which affects every industry of this country. It means that increasingly, European steel is finding its way into this country.

True, the United States has the capacity to manufacture about 140,000,000 tons of steel

This is clearly our basic problem although it is easy to find many pleasanter-to-discuss and easier - to - understand problems. Inflation is never pleasant to live through or talk about; it is like being dead and alive at the same time. In fact, during the first stages of inflation, folks feel better because they believe

that they have more money. The second stage of an inflation is not so tough because one has more money but the quality of goods deteriorates. It is only when money does not buy things that the public becomes conscious of inflation. Then it is too

Note: The high standard of living in the United States may be measured by the consumption of high protein foods such as meats. Red meats, that is beef, veal, lamb, mutton and pork, will be consumed in 1959 at the per capita rate of 157.5 lbs. per year; chicken 29.4 lbs.; turkey 5.9 lbs. This represents a consumption of more than half a pound per person per day. The total poundage of cured, smoked and dried meats amounted in 1958 to 16,800,000,000 (billions) pounds and of canned meats 1,584,000,000 (billions) pounds.

## **Bronchitis** Fails To Curb Ike's Golfing

AUGUSTA, Ga. (AP) - For a man who says he has chronic bronchitis, President Eisenhower doesn't seem to mind getting out in raw, chilly weather.

It was that kind of weather Thursday afternoon when Eisenhower played the Augusta National Golf course.

He did so a few hours after

telling a news conference here he developed bronchitis almost three years ago "and it seems to have become chronic." White House Press Secretary

James C. Hagerty said, however, that he didn't think Eisenhower had run any risk to his health.

Early last month the President caught a cold which in time made him miserable. On Sept. 30 he went to Palm Springs, Calif., on the recommendation of his doctor, and stayed in that dry climate

until Oct. 8. At his news conference Thursday, Eisenhower-who since 1955

> CONCERNED PARENTS DEAR CONCERNED: All tenyear-olds are inclined to exaggerate. They do this for "effect." Pay no attention to it. And be sure you don't say, "I have told you SIX MILLION TIMES to stop exaggerating!"

DEAR ABBY: My daughter was married two months ago. She and her husband made plans to rent an apartment and buy furniture on time. Now her mother-inlaw forced a lot of old brokendown furniture on her that she had stored in her attic for 25 years. It is nothing but junk. I makes me sick to go over there. THE ONE LOW-PRICE WAGON THAT'S ALWAYS BEEN FIRST WITH NEW IDEAS CAN NOW GIVE YOU A SOLIDER AND QUIETER RIDE THAN ANY WAGON COULD POSSIBLY GIVE YOU BEFORE. BECAUSE NO WAGON EVER HAD A DURA-QUIET UNIBODY BEFORE.

The Solid Plymouth wagons for 1960 are built a new way by Chrysler engineers. Body and undersills are joined in one enormously strong steel unit, locked by over 5900 precise welds. Plymouth's nine new suburban models are tighter, quieter, smoother than ever. They're roomier, too.

It took ten solid years of development to create this new kind of wagon . . . and after two minutes behind the wheel, we're pretty sure you'll say it's worth it.

Unibody construction is made for wagons. I cors, windows and tailgate fit better and stay tight. You save on maintenance because welded construction stands up

better, with no conventional body bolts and nuts to work loose. Comfort of ride and ease of handling are noticeably improved in the Solid '60 Plymouth wagons.

See this big, beautiful wagon-and we think you're

going to want it.

Built a new solid way to give you solid satisfaction. SOLID PLYMOUTH 1960 A CHRYSLER-ENGINEERED PRODUCT

Among Jamin's opponents are Senator Frost, who set a world record of 2:05 3-5 for 1 1-16 miles last week; Trader Horn, the U.S. representative in the International Trot at Roosevelt Park, N.Y.; Charming Barbara, defending champion in the American trotting classic, and Darn Safe, whose winnings (\$359,007) exceed those of any other trotter ever; and Steamin' Demon, world's championdouble-gaited stallion, owned by George W. Senator Frost, the probable favorite, beat Jamin to the wire in the \$50,000 American trotting championship at Roosevelt, but broke into a tiring gallop at the finish and was moved back to third in the summary. Jamin was declared the winner and Steamon' Demon was placed second.

Senator Frost is owned by Wayne Galvin of Wilmington, Ohio. Earlier at Roosevelt, Jamin stunned the U.S. harness racing fraternity by winning the \$50,000 International Trot. Trader Horn,

the favorite, finished third. Jamin was heard from again shortly at Springfield, Ill., where he set a record for European horses by covering a mile in 2:00 3-5 in a time trial. A couple of weeks later, at Du Quoin, Ill., he did a mile in 1:58 4-5 in another time trial.

The carrot is probably the favorite vegetable of ordinary horses, but Jamin is nuts about artichokes. He puts away up to two a day, neatly quartered and trimmed.

Jamin wears the red ear muffs because he doesn't like noise.

## Tony Anthony Favored in **Hunter Bout**

NEW YORK (AP)-Life is just one crisis after another for Tony Anthony. There is no middle ground. Either he is the "new" Anthony, striding toward a title, or he is the "old" Anthony, backsliding into the ranks of forgotten

fighters. Ernie Braca, who delivered a 'fight or play" ultimatum to his fighter after a particularly poor performance against Jesse Bowdry in May, hopes the "new" Tony will be on display tonight against Billy Hunter of Detroit. Anthony is the favorite.

Although Hunter is unheralded, a TKO over Argentina's Alex Miteff in his most recent victory, proved he might be too much for the "old" Anthony, Hunter, a Detroit heavyweight stablemate of Sugar Ray Robinson, has a 13-6-2 record in 21 pro fights.

Anthony, national amateur champ in 1952 and an Olympic teammate of Floyd Patterson that same year, is coming up for his last shot at the big money. After the Bowdry defeat he went into drydock for three months. He came back to knock out Bob Toung and then staged one of his 10:00- (4) Telephone Hour better performances in beating Alonzo Johnson, the Pittsburgh heavy who won a tight decision 10:30- (6) U.S. Marshal over Hunter earlier in the year.

Two years ago Anthony fought 11:00- (4) News - DeMoss his way to a title match with Archie Moore in the light heavy division. He was stopped in seven. Switching to the heavies after that disaster, he won seven in a row before he bowed to Reuben 11:15- (4) Jack Paar Show Vargas last January.

## Mystery Benefactor Creates **Huge Charity Fund in Boston**

12 The Circleville Herald, Fri. October 23, 1959

The sum of 17 million dollars area. was left by Albert Stone Jr., a multimillionaire bachelor who in late years lived so quietly his bankers rarely saw him.

Stone died May 10. His will of four paragraphs directed that his entire estate go to the Permanent Charity Fund formed 41 years ago to support charitable work in Greater Boston, It was the largest charitable bequest ever made to a community trust. Trustee of the fund is the Bos-

ton Safe Deposit and Trust Co. The bank's president, William W. Wolbach, says Stone long had been a depositor but came to the bank rarely and had been in failing health in recent years. It was not a case of rags to

riches, however. Wolbach says he understood Stone was left several million dollars by his father, Fund officials said most of the money is in "sound common stock."

"We honestly didn't really know what Stone did," says Wolbach. "Twenty years ago he walked

Demonstrations

Each Afternoon

The Home Arts and Crafts Display which is part of the Fancy Work Exhibit in the Armory, E. Franklin St., is going in full swing this week

Mrs. William Defenbaugh demonstrated materials and techniques involved in the making of ceramic tiles. She did work on a tiled coffee table at the Armory yesterday.

Wednesday afternoon Mrs. Kenneth Luna demonstrated the techniques used in creating various ceramic pieces, Mrs. Luna also has on display pieces made by the coil, rolled and free form method as well pieces which have been "thrown" on the pottery wheel or molded. One piece of sculpture is also included.

A demonstration on textile painting was to have been given today by Mrs. William Defenbaugh and Mrs. Judson Beougher. Demonstrations for Saturday include basketry at 2 p. m. given by Mrs. Sterling Poling and Mrs. Leo Hughes and leather carving at 3 p. m. with Mr. Russ McFarland demonstrating the

These demonstrations have been planned by the members of the committee for the Fancy Work Department. They are Mrs. John Griffith, Mrs. C. G. ## **Teaching Fundamentals Needed**

education, "old-line" schooling and progressive" teaching are terms being bandjed about by the education fraternity to the point where a large segment of the public and many of the educators no longer have a clear picture of what kind of education process this nation had yesterday, what kind it has today or what kind it should have tomorrow. They are equally in the dark on the route to be taken to make the transition from today to tomor-

This confusion is understandable, since the absorption of knowledge remains high on the list of continuing domestic controversies. On one point most educators have reached agreement:

The progressive education thesis that each pupil should be free to choose his own subjects as a means of 'self-expression" was a mistake. It does no good to remind proponents of the idea that it was doomed to failure from the start. It was an idea that would not die until it had been

They are particularly concerned about re-instilling classroom, discipline.

In going off on tangents of theoretical education, modernists have often discarded the fundamentals of history, grammar and mathematics as unnecessary weighty subjects hindering the development of ourious minds. As a result, the foundation necessary to formulation of ideas may be

Education adjustments will continue until the day civilization's progress ends. One of the primary objectives of contemporary educators is to overcome the situation described by an elementary supervisor who appeared at a New York educators' meeting to lament that today's student can pass examinations on the principle and mechanical functions of a barometer, but he cannot tell where the sun

## **Beware Those Pretty Leaves**

This is the time of year when poets con- leaves, particularly after a slight rain or cort their most beautiful phrases about the autumnal garb of nature. Water colorists and oil painters work like mad, capturing on paper and canvas the splendor of the trees.

And there are few sights to rival the scene of a highway or road veneered with the galaxy of red, yellow and orangebrown leaves that have glided down from their branches in this ballet of autumn.

But a danger lurks on such streets and highways. The thin covering of leaves is enough to send the vehicles of the most cautious driver into a spin that may end up on a pavement or into the trunk of a tree - cr against a human body.

The danger is sometimes greater than the hazards of ice and snow. Drivers recognize the dangers of both. But many drivers are not aware of the trickery of fallen a heavy autumn morning mist.

It is not always possible for property owners to clear away the leaves immediately and it is weeks before they have blown away or have been pulverized by traffic. So, when launching into superlatives about the beauty of autumn, keep your eyes on the leaf-covered highways and your hands on the wheel. There's danger lurking in some of that splash of color ahead of the car.

> 1958 over 1957 and that the 1959 period includes months when there was no strike. It would seem to me that labor statisticians would become watchful of the increase of imported steel and also the increase of other imported products made of steel such as automobiles. The steel market is now universal and only two factors influence the buyer - price and credit. The price of one's country's steel cannot be higher than that of another when it reaches

Soviet Russia, for instance, not only sells steel at any political price irrespective of costs, but has presented entire steel mills as part of her foreign aid program, Soviet Russian statistics for foreign aid often include items which we would regard as trade. West Germany is in a position to give long term credits, often more generous

than American companies are able or willing to give. It is impossible to ignore the fact that the American cost of labor is a prevailing factor in the high price for American steel. There can be two views of this, both of which can be defended by reason:

1. That the American high cost of labor is reflected in the American standard of living which it is the right of free men to enjoy. It would be preferable to forego foreign markets than to lower steel prices to make them competitive, if by so doing, it is possible to maintain the

## Fails To Curb Ike's Golfing

AUGUSTA, Ga. (AP) - For a man who says he has chronic bronchitis, President Eisenhower doesn't seem to mind getting out in raw, chilly weather.

It was that kind of weather Thursday afternoon when Eisenhower played the Augusta National Golf course.

He did so a few hours after telling a news conference here he developed bronchitis almost three years ago "and it seems to have become chronic."

White House Press Secretary James C. Hagerty said, however, that he didn't think Eisenhower had run any risk to his health.

Early last month the President caught a cold which in time made him miserable. On Sept. 30 he went to Palm Springs, Calif., on the recommendation of his doctor, and stayed in that dry climate until Oct. 8.

At his news conference Thursday, Eisenhower-who since 1955

## George Wickline, 2. Mrs. Irene Not Unusual for 10-Year-Old

DEAR ABBY: Our ten-year-old inches or over)-1. Mrs. C. C. Mc- son has a very bad habit of exaggerating. We have tried every way we know to break him of it, inches or over)-1. Mrs. Fred of his exaggerations are fantastic into a terrible liar. Have you any suggestions?

CONCERNED PARENTS DEAR CONCERNED: All tenyear-olds are inclined to exaggerate. They do this for "effect." Pay no attention to it. And be sure you don't say, "I have told you SIX MILLION TIMES to stop exaggerating!"

DEAR ABBY: My daughter was married two months ago. She and her husband made plans to rent an apartment and buy furni-

ture on time. Now her mother-inlaw forced a lot of old brokendown furniture on her that she had stored in her attic for 25 years. It is nothing but junk. I makes me sick to go over there. My daughter doesn't want to hurt her mother-in-law's feelings so she says it is fine and she acts glad to have it.

I told my daughter if she does not speak up now she will have her mother-in-law running her life until the day she dies.

How can I get my daughter to speak her mind without making her think I am a trouble-maker?

DEAR MOTHER: If you don't behave like a trouble-maker, nobody will take you for one. If your daughter wants to "act" glad to have the furniture and stay on good terms with her mother-in-law, I think it is her business. It is my opinion that your daughter is using far better judgement than her mother.

She weighs about 300 pounds and we don't have a truck or station wagon, so when we go for a ride all the kids have to sit on top of each other. That isn't so bad, but when we take Grandma, she brings along a pick and shovel because she likes to stop along the road and dig up plants and flowers. She found a lemon tree she liked once. "PRIVATE PROPERTY" means nothing to her. I'm afraid we'll all go to jail. We can't tell her anything because she's 72 and doesn't like to be told. How can we handle her?

CONFIDENTIAL TO "AN EPileptic": Epilepsy affects between 500,000 and 1,500,000 Americans today. It is absolutely necessary to have proper medical treatment under the direction of a physician. The Solid Plymouth wagons for 1960 are built a new way by Chrysler engineers. Body and undersills are joined in one enormously strong steel unit, locked by over 5900 precise welds. Plymouth's nine new suburban models are tighter, quieter, smoother than ever. They're roomier, too.

WAGON EVER HAD A DURA-QUIET UNIBODY BEFORE

It took ten solid years of development to create this new kind of wagon . . . and after two minutes behind the wheel, we're pretty sure you'll say it's worth it.

Unibody construction is made for wagons. Foors, windows and tailgate fit better and stay tight. You save on maintenance because welded construction stands up

better, with no conventional body bolts and nuts to work loose. Comfort of ride and ease of handling are noticeably improved in the Solid '60 Plymouth wagons.

See this big, beautiful wagon-and we think you're

going to want it. Built a new solid way to give you solid satisfaction.

Mervin G. Smith, writing in the as high as the record set last year. October edition of the Ohio Farm and Home Research publication, said farm economy is in a costprice squeeze and that net incomes from farming are down in 1959 and are likely to continue slightly downward during the next

He said farm costs are expected to continue as high or increase slightly. Total gross sales of farm products for the first half of the year were about 6 per cent lower in the United States han in he same period of 1958.

The economist explained:

"In a period of rapid inflation, farmers usually benefit because their prices rise faster than their costs. However, we have been experiencing creeping inflation in recent years and farm costs have been rising faster than farm

"Although this is not as unfavorable for farmers as deflation. it demands careful management of the farm to maintain incomes or even survive.

Hog prices\_have declined more than other commodities, he said. Egg and poultry prices are down substantially. Grains and fruit prices also are 10 to 20 per cent lower. The parity ration on farm prices to prices paid by farmers dropped to 80 in August 1959 or 6 per cent under a year ago, and Smith added that it may go still lower this fall.

He said the most important facor causing changes in farm prices and net income of farmers is the supplies of farm products in the nation are near record levels, he

## Plenty of Ohio Football Action **Due This Week**

OSU, Badgers To Vie; Mid-American Loop Laurels Up for Grabs

COLUMBUS, Ohio (AP)-Ohio State's resurgent Buckeyes travel to Wisconsin for Saturday's Big Ten clash with the Badgers, but plenty of gridiron thrills await stay-at-home fans.

The Badger-Buck battle is a 'lose and out" fray for both insofar as the Big Ten title chase is concerned. Just as big, on the national scene, is the Penn State vs Illinois event Saturday afternoon in Cleveland's Municipal Stadium.

Penn State, 5-0 and rated eighth in the country, must get by the 13th-ranked Illini to stay up there. The latter, shutout winners over Ohio State, have a 3-1 mark.

The rugged Mid-American Conference could clear up a few things, or could develop into a down-to-the-wire race, in Saturday's contests. Miami, dominating team. the league four of the last five years, will be fighting for its life as the Redskins entertain Ohio University.

Miami carries a 1-1 loop record while Ohio U. is 2-0. Bowling Green Smithfield and Cincinnati Taft. topping the list with 3-0, goes against Kent State (2-1) at Kent. The latter lost to Ohio, defeated Miami, so anything can happen.

## Tony Anthony Favored in **Hunter Bout**

NEW YORK (AP)-Life is just one crisis after another for Tony Anthony. There is no middle ground. Either he is the "new" Anthony, striding toward a title or he is the "old" Anthony, back sliding into the ranks of forgotten fighters.

Ernie Braca, who delivered a "fight or play" ultimatum to his fighter after a particularly poor performance against Jesse Bowdry in May, hopes the "new" Tony will be on display tonight against Billy Hunter of Detroit. Anthony is the favorite.

Although Hunter is unheralded, a TKO over Argentina's Alex Miteff in his most recent victory, proved he might be too much for the "old" Anthony. Hunter, a Detroit heavyweight stablemate of Sugar Ray Robinson, has a 13-6-2 record in 21 pro fights.

Anthony, national amateur champ in 1952 and an Olympic teammate of Floyd Patterson that same year, is coming up for his last shot at the big money. After the Bowdry defeat he went into drydock for three months. He came back to knock out Bob Toung and then staged one of his 10:00- (4) Telephone Hour better performances in beating Alonzo Johnson, the Pittsburgh heavy who won a tight decision 10:30- (6) U.S. Marshal over Hunter earlier in the year.

Two years ago Anthony fought his way to a title match with Archie Moore in the light heavy division. He was stopped in seven. Nicholas Drive and Griner Avenue from moats Drive to Brink Drive by the construction of curps and gutters and Pontius Lane from an existing that disaster, he won seven in a row before he bowed to Reuben Vargas last January.

## Patient Labor Force Said Too Large

COLUMBUS, Ohio (AP) - Gov. Michael V. DiSalle has told labor leaders that Ohio's program of patient labor at mental hospitals must be altered.

In a letter to AFL-CIO officials Thursday, the governor blamed the state's financial circumstances for putting nearly one-fourth of the institution's patient load into the work force.

As of Sept. 30, DiSalle wrote, workers in the institutions.

The labor leaders had objected said this program will continue but sent the leaders a list of 19 vacancies for maintenance per-

nel from penal institutions. The governor said he hoped to

eliminate patient labor at the ininitely determined . . ." that the Clarridge. work done is aiding the patient. He felt that some work actually delayed recovery of patients.

DiSalle said the number of patient-workers at mental hospitals Sunday afternoon through the may help explain why Ohio spends southern part of Ohio and visited Church are planning their annual only an estimated \$3.92 a day for friends in Chillicothe enroute turkey supper for Wednesday evpatient care against a \$26.27 average for general hospitals. ## Mystery Benefactor Creates **Huge Charity Fund in Boston**

est in the nation.

The sum of 17 million dollars was left by Albert Stone Jr., a multimillionaire bachelor who in late years lived so quietly his bankers rarely saw him.

Stone died May 10. His will of four paragraphs directed that his entire estate go to the Permanent Charity Fund formed 41 years ago to support charitable work in Greater Boston. It was the largest charitable bequest ever made to a community trust. Trustee of the fund is the Bos-

ton Safe Deposit and Trust Co. The bank's president, William W. Wolbach, says Stone long had been a depositor but came to the bank rarely and had been in failing health in recent years. It was not a case of rags to

riches, however. Wolbach says he understood Stone was left several million dollars by his father. Fund officials said most of the money is in "sound common stock."

"We honestly didn't really know what Stone did," says Wolbach. "Twenty years ago he walked
